

Black Hole Pipebend instructions

step 1

Black Hole pipebend

A pipebend is a bent section of pipeline that Black Hole uses to transport stolen materials to their factories in the 2003 Game Boy Advance turn-based strategy game Advance Wars 2. Like regular pipeline sections, pipebends are indestructible, and they provide a tactical advantage for Piperunners against Direct Combat units, because they cannot reach the inside of a pipebend!

glue

X-Acto knife

rubber cutting mat

parts printed on 200 gsm paper

1.

2.

p. 1/1

All you really need to build this paper model, are the parts, a knife, glue (and some sort of cutting mat, if you don't want to ruin your desk...)

step 2

Cut out and pre-shape part 1. Take your time, and then start glueing the sections together one by one starting with one of the sides, so that you get a nice curve as shown here.

step 3

Next, glue part 2 to the bottom...

Ninjatoes' Black Hole Pipebend

Orange Star Piperunner

Black Hole Pipeline

...and then you're done already!

Thank you for building a Ninjatoes' papercraft model!
